

Why every school and homeschool family should have a subscription to www.exploringnature.org

- 6,000 pages of K-12 elementary science, life science, earth science, physical science, biology, anatomy, and ecology for lesson development and student research.
- 10,000 vibrantly illustrated science models, posters and other visual aids.
- Science activities, experiments, investigations, movies, games and worksheets.
- Learn to draw animals, make habitat murals, dioramas, posters and nature trails.
- Use the test bank, glossary and Next Generation of Science Standards resources.

Access for all teachers and students in your building – at school *and* home.

What This Resource Can Provide for Your School:

A life science resource website with 6,000 pages of illustrated resources that include:

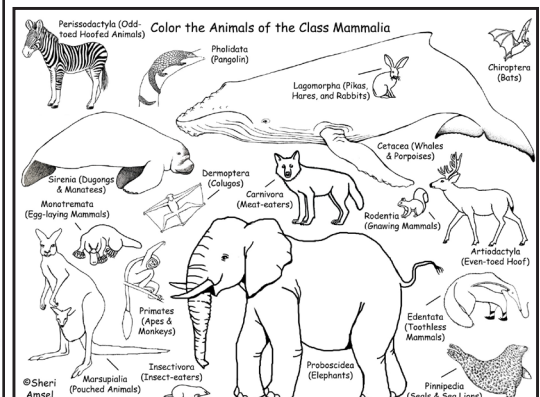

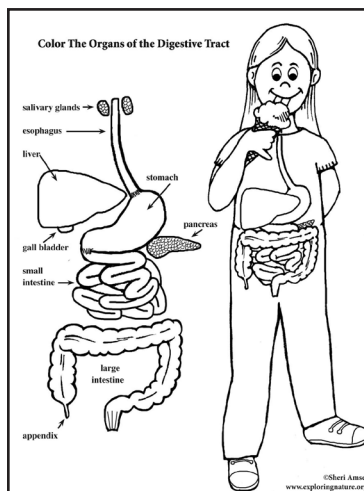

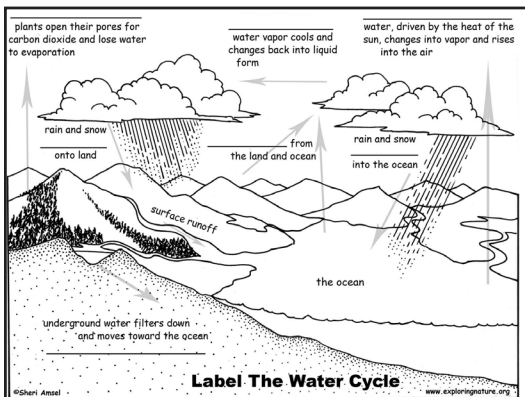

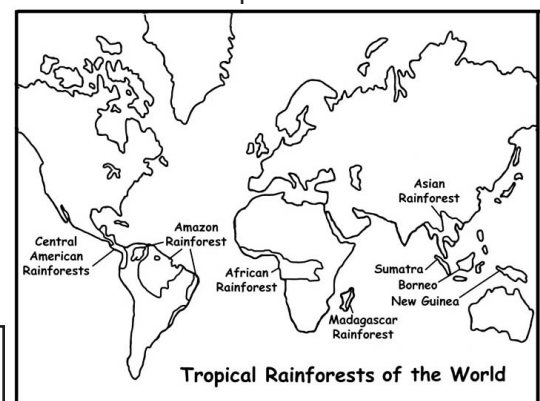

- 2,000 Animals
- Farm Animals
- Animal Tracks
- Trees
- Wildflowers
- Plant Science
- Biomes and Habitats
- Adaptations
- Food Webs
- Life Cycles
- Classification
- Entomology
- Weather
- Space
- Ecology
- Biology
- Physical Science
- Environmental Issues
- Endangered Species
- Human Anatomy
- Animal Anatomy
- Famous Scientists
- Invasive Species
- Short Topic Movies
- Test Collection
- Activities and Experiments
- Science Flash Games
- Next Gen Science Standards
- Worksheets to Download:
 - Coloring and Labeling Sheets, Mazes,
 - Hidden Habitat Pictures, Word Searches,
 - Flash Cards, *How to Draw Animals* Pages,
 - Science Posters for the Classrooms
 - Illustrated Animal and Habitat Diagrams
 - Science Topic Worksheets
- Illustrated Glossary of Science Terms
- Making Educational Nature Trails at School
- Wildlife Blog and *Ask the Zoo Vet* Column
- School Programs & Professional Development
- Monthly Newsletter on New Resources
- Every Page is Cited for Student Research

Some Ways to Use Exploring Nature:

- 1) Prepare science units, inquiry and model making activities, remedial lessons, testing, and sub plans.
- 2) Provide visual aids to enhance comprehension and help with ESL students and low level readers.
- 3) Use drawing, labeling, coloring, hidden habitat, and word search activities to help develop student motor skills, hand-eye coordination, to reinforce science lessons, and as a reward for work completed.
- 4) Teaches students to cite online research using official Modern Language Association (MLA) Style Citations.
- 5) Provides vetted science content online that students can use from home for homework and research.
- 6) A source for step by step instruction in the development of murals, dioramas, gardens, informational posters and educational nature trails on school grounds.
- 7) Help unpack and integrate Next Generation Science Standards, including illustrated standards posters.

More than 2,000 copy-ready coloring, labeling, mapping, activity, and science reference pages.

Subscription Costs and Benefits

Subscriber Benefits:

- 1) Access to all the content on the Exploring Nature Website – 6,000 science resource pages with more than 10,000 illustrations.
- 2) Access to high resolution, printer-friendly versions of all resources.
- 3) Access to the website from anywhere with internet (using your login).
- 4) No advertising on subscriber pages!
- 5) Access for a full year – from the day you subscribe to the same date the following year.
- 6) IP authorization available - Send us your computer (school) IP number(s) and you won't have to sign in.
- 7) We do not do auto-renewals, but will send expiration reminders at the end of your year.

3 Types of Subscriptions:

1) **Individual Educator/Family/Teacher Subscription** - \$25/year - You will choose one login that you can use from any computer from anywhere (with internet access). This allows access for up to 3 computers.

2) **School Subscription** - \$100/year - You will choose one login to share among all the teachers and students in one school building – plus IP authorization will be provided for school computers, eliminating time consuming computer lab sign-ins.

*Homeschool family groups (up to 10) may share one school subscription with permission from site administrator - please email requests.

3) **Multiple School District Subscription Discounts** - We will need a school list, a contact name and email for each school. The District will share one login, but if you send us your IP addresses, we can authorize so you will not have to sign in at school.

For Subscription Quotes and Purchase Order invoices, send your school numbers to sheri@exploringnature.org
Multiple School Subscriptions receive the following discounts:

3-5 schools	25% off	(\$75 school)
6-10 schools	40% off	(\$60 school)
11-30 schools	50% off	(\$50 school)
31-60 schools	60% off	(\$40 school)
61-100 schools	65% off	(\$35 school)
101+ schools	75% off	(\$25 school)
