

Mollusca (Phylum) – Multiple Choice Test

©Sheri Amsel • www.exploringnature.org

Name: _____ Class: _____

1 All the following animals are Mollusks, EXCEPT:

- A** coral
- B** octopus
- C** clam
- D** squid
- E** snail

2 Mollusks are found:

- A** on land habitats.
- B** in freshwater habitats.
- C** in ocean habitats.
- D** all of the above.

3 All Mollusks have all the following traits, EXCEPT:

- A** arms.
- B** a foot.
- C** a mantle.
- D** a visceral mass.

4 The Mollusk Class “Gastropoda” eat using:

- A** a powerful tongue
- B** a scraping radula.
- C** a secreting stomach.
- D** they dont eat.

5 Snails and slugs (in the Class Gastropoda) breathe through:

- A** a pulmonata.
- B** gills.
- C** pores.
- D** all of the above.

6 The Mollusk Class called the “Bivalves” (clams, oysters, mussels) feed by:

- A** scraping food with their radula.
- B** biting food into bits before swallowing it.
- C** pushing their stomach out of their mouths to dissolve prey before eating it.
- D** filtering food particles from the water.

7 The Mollusk Class called the “Cephalopods” includes all the following EXCEPT:

- A** squid
- B** octopus.
- C** jellyfish.
- D** nautilus.

8 Cephalopods kill their prey with:

- A** a sharp beak.
- B** poison ink.
- C** sharp teeth.
- D** their suction cups.

Mollusca (Phylum) – Multiple Choice KEY
